We wanted to book a hotel room in July but there were no vacancies.

# Promote

to encourage people to like, buy, use, do, or support something.

Advertising companies are always having to think up new ways to promote products.

# Database

a large amount of information stored in a computer system in such a way that it can be easily looked at or changed.

We're linked to the online database at our head office.

# Spreadsheet

an electronic document in which information is arranged in rows and columns, and can be used to do financial calculations and plans.

I have created a spreadsheet listing the call charges for various telephone companies.
